C. H. BIHN ACCUSED OF FORGERY BY CO.

Felony Warrant Issued This Week on Complaint of Peppers Fruit Company

A suit against the Peppers Fruit Company of San Francisco, instituted several weeks ago by W. S. Graham, well known rancher of the Largo section, had as its aftermath this week the issuing of a felony warrant against C. H. Bihn, local fruit buyer, who last year represented the fruit concern in this section.

Bihn is charged with having forged the endorsement of Graham to a check issued in favor of the latter for $381.45. The warrant is sworn to by Will Van Dyke, local attorney, representing the fruit company.

The facts appear to be as follows: Bihn, while acting for the fruit company last year, bought certain produce from Graham. The company mailed the check to Bihn, who, it is alleged, instead of turning the check over to Graham, forged the latter's name to it and evidently cashed it with R. M. Lieurance of this city, as the check bears what purports to be Lieurance's endorsement.

After waiting in vain for his money and after having exhausted ordinary means to collect it, Graham filed a suit in the superior court against the fruit company. The latter thereupon paid the claim, but their suspicions became aroused and they looked over their cancelled checks with the result that they found the check made out to Graham and evidently endorsed and cashed by him. Further investigation disclosed that the endorsement was a forgery.

Lieurance, the son of H. F. Lieurance, a merchant of this place, is a young man of good reputation and character and evidently cashed the check for Bihn without realizing that he was doing wrong and as a favor to Bihn, with whom he is said to have been particularly friendly at that time.

Reports were given out yesterday by a local attorney that the matter had been squared up and that everybody was satisfied. However, District Attorney Gibson stated yesterday evening that the case would be prosecuted with every resource at his command.

DEATH OF JOE MONTGOMERY

Joe Montgomery, a world war veteran, died in this city yesterday afternoon following an operation for a burst appendix. The deceased leaves a widow and 6-year-old son, who are in Austria visiting with relatives.

Joe Montgomery was born and raised in the Eel river section above Potter valley and was well known and liked by a wide circle of acquaintances.

The news of his death is genuinely mourned by all who knew him.

The funeral will be under the auspices of Lewis White Post, American Legion, of this city.

MENDOCINO BEACON COMPLETES FIFTIETH YEAR

Well Known Coast Newspaper Enters on Second Half-Century

Beginning its second half-century of usefulness, the Mendocino Beacon, one of the county's oldest newspapers, celebrated its fiftieth birthday last week with a sixteen-page edition. The paper was well filled with congratulatory messages from various business enterprises of the entire coast section, which it has served so long and so faithfully.

The Beacon was founded in September, 1877, by the late William Heeser, father of the present editor and proprietor, A. A. Heeser. It has always been a clean, newsy sheet and holds the confidence of its readers to a great degree. Whatever the Beacon has to say on questions of local interest is taken as gospel by the great majority of its readers.

That it may flourish and continue to spread its influence, which is always for good, is the sincere wish of the Dispatch.

ELECTRICIAN AND WIFE HURT IN ACCIDENT

An electrician named Will Thomas, working for the Snow Mountain company here, went over the grade near Cloverdale last night in his car. Both he and his wife are unconscious in a hospital at Cloverdale.

Identification of the couple was made by means of a letter found on Mrs. Thomas from Mrs. Lester Nevin of this city.

OFFICERS "KNOCK OVER" STILL NEAR COMPTCHE

Joe Jackson and Al McCabe, members of the dry squad, yesterday raided a still near Comptche and took into custody Achille Chicchi. The plant was located up a gulch leading off from the Soda Spring road. The officers have been watching the place for several weeks. In the meantime Chicchi had been getting his mash and other supplies into the place. He had no sooner started to operate than the officers closed in on him.

He was in trouble in 1924 on a charge of transporting liquor and paid a fine of $500, swearing then that he was through trifling with the law.

Chicchi when leaving his plant at Comptche was accustomed to carefully brush out the marks of his footsteps in the trail leading from the road to the still.

Mrs. C. M. Mannon is in San Francisco this week with her daughter, Mary, who is under medical care at Dante sanitarium. Mary is improving and is expected home in the near future.

Chris Donovan, veteran hop buyer, who at one time made a fortune in the purchase and sale of hops, passed away in San Francisco this week.

TWO INDIAN CHILDREN DIE VERY SUDDENLY

Circumstances Surrounding Affair Bring Probe from State Board of Health

Dr. P. M. Elwood of the state board of health is in Ukiah today holding an inquest on the death of the eight-month-old twin daughters of Mr. and Mrs. Joe Myers, Indians at the reservation on the Orrs Springs road. The death of the babies occurred Wednesday within an hour of each other. Dr. S. L. Rea believes the cause of death to have been infantile paralysis. Dr. Elwood came to Ukiah on the request of Dr. Rea.

Wednesday afternoon Mrs. Myers appeared at Dr. Rea's office with her infant daughter dead in her arms. Dr. Rea was not in his office and his attending nurse sent the mother to the coroner. The body of the babe was taken to Cleland's undertaking parlors.

Mrs. Myers returned home to find the second child very critically ill. She came back at once with the child to Dr. Rea. The doctor was in his office this time and pronounced the case infantile paralysis. Death occurred almost immediately.

The local inquest called was composed entirely of laymen.

The Indian children had been sick since last Sunday night. Wednesday afternoon, Mrs. Valentine, wife of the superintendent of the Indian school went to the cabin where the babe was ill. She advised that the child be taken at once to a doctor. Mr. Valentine brought Mrs. Myer and the baby to Dr. Rea. The child died on the way to town.

The Myers very recently came to Ukiah from Lake county. There are three other children in the family. The home has been quarantined and the state board of health will investigate the case thoroughly.

Dr. Rea states that two other cases which he believes to have been infantile paralysis have come under his observation after the period of infection had passed. One of these cases is that of a seven-year-old Indian who came to his office to have her tonsils removed. He believes that the paralysis of the side from which the child was suffering had been caused by infantile paralysis several weeks prior to her coming to his office.

For months the state board of health has been sending out warnings, precautions and methods of prevention against this dread disease. More than five hundred cases have been reported in the state against such a number as six or seven in previous years.

FIRE DESTROYS GARAGE; FOUR CARS ARE BURNED

A fire alarm was turned in at about midnight last Wednesday night for a fire at the garage of the ice plant.

When the alarm was first phoned in the firemen were told that a car was afire near the plant. They took the truck down without turning in an alarm. On reaching the scene of the blaze they found the garage in flames and it was not until then that the general alarm was turned in by Earl Nickels who came back uptown for the purpose.

Three trucks belonging to the ice company and a touring car standing in the alley behind the garage were burned.

TO BUILD APARTMENTS

A development that will contribute considerably toward relieving housing congestion in Ukiah, is contemplated by Mrs. Charlotte Collins, of San Francisco, a former well known resident of Ukiah. Mrs. Collins was in Ukiah this week and is closing a deal for the purchase of the southwest quarter of the block occupied by the residence of Mrs. C. R. Thomas. The lot faces on north Pine street.

Mrs. Collins will erect a duplex apartment of four rooms each, so built that two more apartments of four rooms each may be added later.

The building is to be of stucco finish with latest features installed in the interior for convenience of housekeepers and will be a model of its kind.

HUNTERS HEARD FROM

A hunting party from Ukiah, consisting of Clem Heryford, George Miller, L. H. Foster, George David, Rev. A. A. Doak, with Bert Higgins as guide, which left here recently for a trip to Trinity county, were reported Wednesday as being at Keystone ranger station. Heryford had bagged one 300-lb. bear and a big four-point buck, while Foster was catching the limit of trout daily. The members of the party were enjoying a good time.

POZZI BROTHERS AGAIN CAUGHT RED HANDED

Serving Papers on Defendants, Sheriff "Butts In" to Further Infraction

FT. BRAGG, Sept. 21.—Walking into the premises of Pozzi brothers in this city Monday morning to serve some papers in connection with a bootleg complaint against them, Sheriff Byrnes entered the dining room, passed through the kitchen and not finding those he sought entered a room at the rear. There he found the brothers; also a number of other matters that evidently were not intended for his inspection. A crap game was in progress in one corner of the room, and on a table stood a half empty bottle of liquor and three glasses from which drinks had just been served. With this evidence in view the sheriff proceeded to arrest the brothers for possession and placed them in the local jail where they remained until Tuesday when they were released on $1000 bonds each.

Following the arrest of Pozzi brothers the sheriff made the rounds of several other places and as a result three women were ordered out of town. One of these was located in the old Allen restaurant building on Redwood avenue; another was found in the Oaks hotel and a third was in the house on Franklin street.

With one of these was arrested and placed in jail here Leno Romeri on a charge of being in a house of ill fame and having liquor in his possession. Romeri was arrested some time ago on a charge of rape, on a warrant sworn out by James Borgna, father of the girl involved and his case is still pending.

ERRONEOUS REPORT

Bess, the valuable sheep dog, owned by William Owsley, foreman of the A. F. Moulton ranch, was run over by Mr. Moulton on the ranch. The dog ran in front of the small Ford car on a down hill grade, and one wheel passed over the hind leg of the animal. The dog was not seriously injured and is recovering.

Though a prize dog, Bess has never been entered by Mr. Owsley in any contest and there was no intention of entering the animal in the Boonville contest, as reported in the Press. Mr. and Mrs. Owsley are away on a vacation. Bess is in Ukiah under the care of Dr. Petersen.

E. B. Hiatt has been in town the past week visiting at the home of Recorder and Mrs. James R. Elder.

INSTITUTE POSTPONED BY HUMBOLDT CO. AUTHORITIES

The teachers institute, which was scheduled to take place at Eureka next week, has been postponed indefinitely on account of the prevalence of infantile paralysis in Humboldt county. Word was received from the Humboldt school superintendent Wednesday by Superintendent Patton of this county to that effect.

The schools throughout this county, therefore, will not have vacation next week.

HOSPITAL NOTES

Mrs. Margaret De Bow, Margaret Bull before her marriage a few months ago, was operated upon Wednesday at Ukiah General hospital for appendicitis. The patient is doing well. Mrs. De Bow was in Ukiah at the home of her parents when she was taken with a severe attack of appendicitis.

Le Roy Hopkins of Potter valley, and F. Lore of Ukiah, had their tonsils removed at the hospital this week.

Harriet Price was treated for an infected foot caused by a sliver.

A son was born at Ukiah General hospital last Saturday to Mr. and Mrs. Joe Nederost.

The hospital is filled to capacity.

NO INFANTILE PARALYSIS IN LOCAL GRAMMAR SCHOOL

A report that a child had been sent home from the Ukiah grammar school last Wednesday with both legs paralyzed as the result of an attack of infantile paralysis was denied yesterday by both the community nurse, Miss Fuller, and local physicians, as well as the board of trustees.

There have been no cases remotely resembling the disease in local schools.

Selby Marks and mother, Mrs. Sarah Marks, were Ukiah visitors this week. They are contemplating certain alterations to the front of the Hotel Cecille, their property, in this city, and the trip was made for the purpose of attending to business in that connection.

FIFTEEN WILLITS FAMILIES WILL BE MOVED TO EUREKA

Highway Force Also Includes Twelve Unmarried Men

WILLITS, Sept. 21.—There have been so many rumors circulated concerning the moving of the state highway office from Willits to Eureka that the Dispatch reporter interviewed Division Engineer T. A. Bedford this morning so as to get the story right for Dispatch readers.

Most of the force at the Willits office will leave for Eureka on Friday of this week and the equipment and records will all be shipped the first of next week. All told there will be 27 men transferred and of these 15 have families and 12 are single men.

Traffic over the Redwood highway is now being delayed some by the 17-mile stretch of highway, just this side of the Klamath river bridge, which is now in course of construction. This is now a one way road and autos have to wait at both ends and be escorted through by traffic cops. It will take at least a year to complete this stretch of highway. Beside this there will be about 12 miles more of highway to construct in Del Norte county and the contracts for this will probably be let by the commission this fall.

The highway is now safe, but slow, and it will be completed by a year from next winter. The Oregon connections on both the Redwood highway and the Roosevelt highway are completed to the California line.

WOODSMAN DIES FROM INJURIES AT TEN MILE

FT. BRAGG, Sept. 21.—Leslie E. Wells was injured at camp 29 in the south fork of Ten Mile woods of the Union Lumber Company Tuesday afternoon at about 2:30 and died while he was being conveyed from camp 29 to camp 1 on the train. Deceased was employed on the log landing and was unhooking chokers when a log that was choked in the middle flew around and struck the young man in the back. Deceased had been in the woods but one week when the accident occurred. Prior to that time he had been working in the plant at this place and in the planing mill. Deceased was about 30 years of age and was unmarried.

ROADHOUSE CLOSED BY SHERIFF BYRNES

As a result of the disorderly condition prevailing at the recently opened Tavern located just south of the city limits on the road to Noyo, the sheriff has served notice on its proprietors to close the same. Last Saturday night drinking was quite prevalent in this place and a number of fights occurred and general rough house tactics prevailed in which a number were beaten up. The sheriff arrested a habitue of this place and placed him in jail here.—Ft. Bragg Advocate.

CITY TRUSTEES MEET IN REGULAR SESSION

Usual Bills Allowed and Routine Business Transacted at Meeting Monday Night

Passing claims to the amount of $14,929.69 the board of city trustees met in regular session last Monday evening.

One of the most interesting matters discussed from a community standpoint was the matter of a new depot for Ukiah. It seems that the railroad company will consider building a new depot provided that the city will carry out the following improvements: Widen Mason street ten feet; pave Smith street; pave Mason street from a point 100 feet north of Smith to Perkins; acquire the gore at Mason and Perkins; acquire the McCormick property and make a park of it; cover Gibson creek with a steel and concrete culvert; build curbs, gutters and sidewalks on Mason where the proposed paving is to be done.

In other words Ukiah is to carry out a forty-thousand-dollar program to improve the railroad's frontage on Mason street and in return therefor the railroad company will consider building Ukiah a two-bit depot.

R. E. Donohoe, city engineer, was instructed to make an estimate of the probable cost of the above requirements and the board has the matter under consideration. It is likely that a bond issue would be necessary to defray the cost, which Donohoe believes would run not less than $30,000 and probably more.

For some time the need of an ordinance to regulate traffic when the fire siren blows has been felt very keenly. There have been a number of narrow escapes on account of everyone's starting for the fire whenever the siren blows. In addition, the fire engine is greatly impeded and the firemen are hampered by the autos pressing in to the scene of the fire. For this reason the board was asked by the department to pass an ordinance requiring all automobiles to park for 10 minutes after the siren sounds. The ordinance was thereupon ordered prepared.

A petition was filed from certain property owners on Scott street asking the board to initiate proceedings to pave that throroughfare from State to Pine with a three-inch asphaltic concrete base topped with a one-inch asphalt wearing surface.

The garbage service was discussed. It seems to be working very satisfactorily and the board has received some very favorable comment from various citizens of the town.

The board has recently installed a high pressure storage tank at the gas plant at a cost of $1720.50.

A new regulator has been installed in the electrical department, the old regulator having become too small for the requirements of the city. The new machine cost $3,375.96. The old regulator will be sold to Healdsburg for $1,000, arrangements having been completed.

We are asked to believe that God Almighty did not know his business when it came to making man. First, there should be no appendix and it must come out. Then tonsils and adnoids should be removed. After you recover from and pay for this operation, you are told of numerous ailments caused by your teeth and so out they must come. Now you feel that the work of the Almighty has been so improved upon that you can live in peace for the few remaining years. But, no luck. There are "treatments" of various kinds lurking around the corner. Just now the removal of tonsils is a major sport. As one man puts it, "they are blamed for about everything these days, from bad form at bridge, a failure to get a salary raise or a tendency to be shy in company, to rheumatism, heart trouble and general collapse. Some doctors no doubt blame them for falling hair, high golf scores, and fallen arches." Everybody is having tonsils out. People simply are not wearing them anymore.

The Ramber wonders at times just what he does that sort of gets under the other fellow's skin. He does not own any cats that hold nightly amours under his neighbor's bedroom window. I like cats very much,—in the daytime. As for the night, I know of no other animals that are quite so noisy in their love making. Maybe I would keep cats, too, if they would purr around by day and wander far abroad by night. If the Lord made a mistake by putting tonsils in humans, He made another mistake by not putting the music of the nightingale in cats.

I just have been reading in Time that William McAndrew, superintendent of Chicago's public school system, has injured the feelings of the self-satisfied Chicago school teachers by setting to work on the supposition that he could make the Chicago schools more educational than he found them to be. Also, that there had been blushing and anger among the teachers when Mr. McAndrew invited the public to "sample" the teacher's work, by quizzing and examining a group of representative pupils on a public platform. No wonder McAndrew got himself suspended from his job!

Bigness is not the test of success. We must not assume that huge sales must have merit. You can follow the crowd, and sometimes the crowd is right; often it is wrong. There is a certain magic in salesmanship. Advertising has become a highly developed art. The average citizen gets a daily dose of bunkum. All of which leads one to conclude that we do not know very much about the things we buy.

If a customer attempts to purchase an article in Ukiah, but without success, and he goes to Santa Rosa or San Francisco to secure it, and at the same time buys additional articles to the extent of fifty to a hundred dollars, what would you say about trading at home? It may not pay the home merchant to carry certain items in stock, and at the same time he can ill afford not to carry them. In this day and age people are not going to take "something else" or "something just as good." They have learned that it is possible to secure what they want and it behooves local merchants to give it to them.

On behalf of my parents, Mr. and Mrs. W. J. Child Victim of Thoughtless Prank

Little Dorothy daughter of Mr. and Mrs. Norris Clark was the victim of a vicious or thoughtless prank played by several eighth grade grammar school boys Thursday evening, which may yet result seriously.

Some time after school closed several boys fixed a rusty fish hook and two rusty nails in the center of the slide at the children's playground at the grammar school and then called to little Dorothy to come and slide down. Entirely unsuspecting, the child slid down the chute and the fish hook and nails caught her right leg, ripping and tearing her tender flesh from ankle to thigh, making an ugly wound which bled profusely. The crying child was at once rushed to Dr. Preston's ocice where the wound was treated and dressed.

If tetanus does not set in it will doubtless heal alright, although the limb will probably be scarred for life.

Load of Fruit Turns Over

A fruit peddler from the interior came to grief Wednesday night between Dark Gulch and Albion when his big truck, which was overloaded with assorted fruits and vegetables and in its top-heavy condition on a sidling place overturned, crashing through the roadside fence and spilling his load in splendid confusion over the countryside. Great big juicy watermelons went rolling down the hill into a nearby gulch while pears, peaches, apples and vegetables were scattered from Dan to Bersheba. Everybody who passed paused in wonder and stayed to eat, and for hours every car that passed had occupants feasting on watermelons.

Fires at Comptche

COMPTCHE, Sept. 15.—There are several forest fires in this neighborhood, one at Bull-team gulch, another at Railroad gulch and a third blaze at Sunny Slope, opposite Camp 10. The fires are mostly in the second growth timber; some fences have been burned. The fires have been burning for three or four days and the Albion Lumber Company has sent out crews to fight the flames.

Woodsman Narrowly Escapes Being Crushed

O. Laurenzetti, an employee at Boyle's camp, narrowly escaped being crushed to death Wednesday. While loading logs, a big one rolled suddenly, and before he could jump to one side and avoid it, he was caught and pinched between the log and a stump, pinned fast, right across his hips and only the fact that there was a big knot on the tree saved him from being crushed to a pulp. Fellow workmen near at hand pried the log away and released him from his uncomfortable and dangerous position, and brought him to the office of Dr. Preston, where upon examination he was found to be suffering from a contused abdomen and left kidney. The physician strapped him up with adhesive and after a couple of weeks he will be as good as ever.

Cars in Collision

With a crashing of glass and a rending of wood and steel, two autos came together on Lansing street about 6 o'clock Wednesday night, opposite Seman's blacksmith shop. A Studebaker coupe, driven by a representative of Langley and Michels, accompanied by another man was going towards Fort Bragg when a Whippet, driven by Mrs. Rose Andre, came out of the road from East Mendocino and crashed into the Studebaker with disastrous results. For awhile intense excitement prevailed and a big crowd gathered. The passenger in the Studebaker was thrown from his seat and poked his head through the windshield, and by a miracle escaped injury as the shield was broken into jagged bits by the impact.

Mrs. Andre, driving the Whippet, escaped injury, but the elder Mrs. Andre was quite painfully injured, one of the large veins in her right leg burst, evidently from hitting the emergency brake.

Both cars were practically new and both received mighty rough treatment in the mixup. The Commander suffered most from the collision as it was struck just a little aft of amidships and showed a ruined running board, crimped up rear fender, a broken disc wheel, and a broken windshield. An inspection of the Whippet showed it did not escape free; a bursted radiator, broken bumper and smashed in head frame was the sum total of damage it sustained.

Car Goes Into Pond

CASPAR, Sept. 15.—Last Saturday at the mill pond Bert Tyson backed his Ford touring car over the bank, breaking it up considerably. He escaped with a few bruises. He was very fortunate in not being badly injured as it is a very bad place to go over.

Meeting Place of Farm Center Is Changed to Mendocino

The Fort Bragg farm center met Wednesday night at 8:30 in Apple hall with about thirty in attendance. Chairman Thomas Simpson presided and a very interesting meeting followed.

R. D. Foote, assistant farm advisor, from Ukiah, drove over from the county seat to attend and addressed the meeting. Mr. Waterhouse, state leader of boys' clubs, was also present and made an interesting talk. Mendocino has one of the two boys' clubs in the county—a potato club—and the boy members are showing a great deal of interest in their organization and also in the raising of certified seed potatoes.

Several new members were admitted to membership in the farm center during the evening. It was agreed to change the place of meeting to Mendocino, for a time at least, and the monthly meetings will hereafter be held here at Apple hall on the second Wednesday of each month. Local members served coffe and cake and sandwiches during the evening.

Chopper Injured in Woods

Richard Wirta, chopper at Lester Mallory's camp on Valentine creek, was injured Wednesday while falling a tree. A limb struck him when the tree crashed to the ground, raking his leg and badly lacerating his knee, making an ugly and painful wound. Wirta came into Dr. Preston for repairs and will probably be laid up for a couple of weeks. The injury was not serious although very painful.

Mr. and Mrs. A. W. Simmons have taken possession of their ranch in Redwood valley. Mr. Simmons is home from South America on a vacation and will return in the near future. Mrs. Simmons will remain on the ranch for the present.

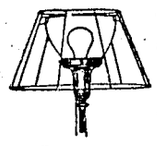
New life new color for your living room

A modern principle in floor and table lamp construction improves home lighting

Soft, mellow, shadowless light evenly spread throughout the room—ample light for the whole family to read, write, sew or play cards—light that brings out the rich colors of draperies and furniture—light that is kind to your family's eyes.

Such lighting is now possible through a new principle in floor and table lamp construction. This new principle banishes the harmful gloom and glare that is so common with ordinary lamps.

The New Principle



The silk shade rests on an inverted glass reflector which surrounds the bulb so that direct rays from the electric lamp can never strike you in the eyes. It's this reflector that saves your eyes and diffuses the light. The result is a single floor or table lamp that really lights a room.

Our representative would gladly discuss home lighting with you. He'll tell you about the beautiful new floor and table lamps that are designed after this new principle of lighting.

Fastest Four in America Proves Its Claim to Title . . .

Dodge Averages 67.35 miles per hour in Beating All Other Fours in Atlantic City A. A. A. Race

The Atlantic City (N.J.) Speedway Association, without Dodge Brothers instigation or knowledge, bought a Dodge Brothers Four and entered it in a Labor Day race for Four cylinder stock cars. Four cars of other makes also competed. All were strictly stock cars as required by the rules of the association.

The race was for 25 miles—to determine which was "The Fastest Four in America."

The Dodge won.

Its average speed for the entire race, from a standing start, was 67.35 miles per hour (officially timed by A. A. A.).

Generous confirmation, to say the least, of the modest claim of "Mile-a-minute Performance!"

Even more remarkable than the speed, however, is the fact that the car had been driven only 10 days and yet was able to withstand this difficult test without once stopping.

Thus the race not only offers conclusive proof of the Dodge's superiority in speed, but stands also as a glowing tribute to the rugged materials and excellent workmanship that go to make it—

America's Fastest and Finest Four!

SHRINER OUTING

Mr. and Mrs. Follett Morris came home Tuesday night from the Shriner tour to the Hawaiian Islands. Every minute of the trip was filled with entertainment and festivities of the most delightful character. The Shriners in Honolulu were most capable hosts and privileges were granted the visitors that few tourists enjoy.

An interesting feature of the return trip was crossing the path of the Mauii, the funeral ship for the lost Dole flyers. According to the captain the two ships met at a point in the Pacific which is farthest from land of any place in the whole world. There was a stowaway on the Shriner ship and the moving picture men on board the Mauii wanted to get back to San Francisco so the two liners stopped in mid-ocean close enough for the passengers to talk. The stowaway was transferred to the Mauii bound for Honolulu and the camera men boarded the Shriner ship. The ships met about a day following the ceremonies at the spot where the lost flyers are supposed to have gone down. The moving picture men had photographs of the memorial services and these were shown to the passengers. They also took moving pictures of the festivities on board carried on by the Shriners. Ukiah druggist and substantial young business man will appear on the moving picture screen in his native land attired in a Hula skirt over B. V. D.s giving the native dance of Hawaii with nine or ten other young men.

On the trip to Hawaii's volcano the Shriners spent the night at Hilo. During the night 3:15 inches of rain fell. The Morris had the pleasure of a visit with the Ernest Wheelers in Honolulu. Mr. and Mrs. Follett Morris accompanied Mr. and Mrs. Harry Morris of Napa on the trip. During their absence their little daughter, Mary Jane, stayed with Mr. and Mrs. A. L. Wesels.

RADIO PARTIES LISTEN IN ON DEMPSEY-TUNNEY FIGHT

All over this city last night radio parties listened in on the Dempsey-Tunney fight. That three million dollar house in Chicago, estimated the largest assemblage in doors in history, was augmented by millions who listened to the account of the fight through a radio interpreter. Many women who would not witness a fight listened to the radio report with as keen interest as the men.

One of the largest parties assembled to hear the fight was held at the McNab ranch with Mr. and Mrs. A. R. Bonnifield acting as host and hostess. Following the fight Mrs. Bonnifield served a bountiful buffet supper to the guests, among whom were Mr. and Mrs. Leslie Crawford, Mr. and Mrs. M. H. Iversen, Mr. and Mrs. C. H. Bihn, Mr. and Mrs. H. E. Davis, Mr. and Mrs. Taylor McGarvey, Mr. and Mrs. Bunt Bucknell of Longvale, Mr. and Mrs. Bert Mankins.

The Bonnifields have a powerful radio and so were assured of excellent reception. They have gotten Japan on a number of occasions and have no trouble in getting perfectly any station on this continent.

He managed to walk to Dr. Babcock's home and after making an examination the doctor ordered him to go home and go to bed. That night he bled profusely and all of the children were summoned and are now here. Yesterday afternoon the doctor pronounced him out of danger and in a few weeks John will probably be all right. Just now he has partial paralysis.

The potato crop is now being dug and the yield is not going to be as large as usual. The hot spell that we had about the first of July did a lot of damage to the crop when it was just getting a good start. Just now the market is flooded with river potatos and the price is low.

Our genial mayor, Jim Roberson, met with a serious accident last Monday afternoon while putting oil on his new roof. He stepped on a piece that had just been oiled and slid a distance of about ten feet on the roof and then fell another ten feet and landed on a gravel walk. He was badly shaken up and received serious bruises along the entire right side of his body. His right foot is very badly sprained and is now twice the normal size. TO URGE COMPLETION OF McDONALD-SEA HIGHWAY

Fort Bragg Business Men's Club Names Committee to Boost

FT. BRAGG, Sept. 20.—Credit for prompt action is due the highway committee appointed as a result of the Community club luncheon last Thursday. This committee which met at the Community club Tuesday evening and organized is composed of C. A. Curtis, chairman; W. J. Schultz, secretary; Sam Shafsky, H. P. Preston and C. B. Melville. To this number will be added one number each from Mendocino, Albion and Anderson valley.

The members of the committee immediately got to work following the dinner at the Community club, and as a result last evening their program had been so far outlined that they had been assured a hearing by the State Highway Commission at Sacramento on Friday, September 30. This is certainly efficient work.

All friends of the MacDonald-to-the-Sea road are greatly encouraged at this time. Originally some $600,000 was allotted to this project, and only about half that amount was spent in the building of the road down the Navarro river from Wendling to the sea. When state road funds ran low we failed to get the remainder of this sum and the development of this road has been held up since on that account.

Now, with the increased gas tax money that will soon be available there is promise of sufficient funds to meet these overdue obligations, and some of the commission have gone on record as saying that they felt that these obligations ought to be met first.

The committee and the people of this county generally feel that they have a friend in Ralph C. Bull, chairman of the commission and enterprising business man and progressive citizen of Humboldt county. Mr. Bull knows conditions in the northern coast counties and their crying need for better roads.

Miss Jimmie Hughes arrived in Ukiah last evening to be a guest of Mr. and Mrs. Alfred Pioda for a week. Her home is in San Francisco.

Mrs. Mary Ruddock is home after a visit of several weeks in San Francisco.

School Superintendent Patton and wife were visitors to San Francisco over the week end.

J. S. Rohrbough of Covelo, was in Ukiah this week on his way to San Francisco.

BUY HOME HERE

Mr. and Mrs. Fred Patton have bought the Zachary house on Oak street opposite the Saturday Club rooms and will make their home there in the future. They recently lost their home on the asylum road by fire.

Dave Johnson has returned from a trip to the city.

FARM BUREAU NOTES

Make Range Survey

Dr. A. W. Sampson of the Division of Forestry, University of California, in charge of Range Management, spent six days in Mendocino county going over various ranges where cooperative work in regulated grazing is being conducted. Three phases of range improvement work are being studied in cooperation with the University of California, the Farm Advisor's office, and county livestockmen, namely: deferred grazing practices, brush burning experiments, and the introduction of new varieties of domestic and range grasses. Considerable time has been given to each phase in working out varieties of forage plants, life histories, percent of cover, grazing capacities, and such other factors as pertain to the range management problem. Cooperators are very much alive to the need for improving the present range grasses and all report excellent results where deferred grazing practices have been followed. Increase in the numbers of offspring is reported in practically all cases and is the result of improved range needs following rotation grazing.

Diagnosing Ailments of Sheep

Dr. R. H. Mills of the State Department of Agriculture was in Ukiah during the past week diagnosing various sheep ailments. Internal parasites of different kinds proved to be the commonest trouble here. Stomach worms were found to be the most serious. Sheep which are in a non-thrifty condition irrespective of feed conditions should be examined and treated for parasitic troubles. Stomach worms may be controlled by administering one ounce of one percent solution of blue stone to each sheep. A second treatment should be given two weeks later. Detailed information relative to the treatment may be obtained from the Farm Advisor's office.

Reviews Extension Work

W. A. Lloyd of the United States Department of Agriculture, Extension Director for the eleven western states, spent last Monday in this county reviewing Extension work. Prior to coming to Mendocino county Mr. Lloyd spent some time in Oregon and Washington inspecting work of the Extension Service in those states. Some valuable suggestions for the improvement of the Extension Service work in Mendocino county were given while he was here. Mr. Lloyd was also very complimentary in his remarks concerning the work of the Farm Bureau and Extension Service in this county.

Low Tuberculosis Percentage at Covelo

The results of the tuberculosis testing work in Round valley conducted by Dr. G. D. Loder revealed that only sixteen cows were found to re-act to tuberculin out of over six hundred cows tested. This gives a very low percent of diseased animals, indicating a fairly clean condition as far as health of the dairy animals is concerned in Round valley. A number of tubercular cows came from herds where either untested animals were introduced into the dairy herds or where association with diseased animals in adjacent pastures occurred. Dairy cows free from tuberculosis can only be obtained by extreme care in preventing contact of healthy cattle with diseased animals. The dairymen in Round valley as well as other sections of the county are exercising great care, regarding this point in order to prevent infection of their herds with tuberculosis. The more carefully this is done the sooner Mendocino county will be free of bovine tuberculosis.

LIGHT FROSTS PRESAGE END OF BEAN SEASON

UPPER LAKE, Sept. 21.—The several light frosts of last week and Monday night did but little damage to the bean crop. If further frosts do not occur the picking is expected to last until the middle of next week. Tule lake produced less than one-half a crop this year, due to depredations of the cucumber beetle. The entire bean crop was below average this season. About 180 men, mostly Filipinos, are employed in the field. While the beans were not so abundant this year, the past two Sundays the cannery was obliged to run to care for beans on hand.

Nebraska butchers, while the bulk easterns scaled at $13.35. Desirable 160-200 lb. Californias sold for $12.90-$13.10. Packing sows $9.50-$10.50. Few loads 90-100 lb. feeder pigs $11.50-$11.60.

SHEEP: Receipts for the week reached 9000 head. Prices have been generally steady with some weakness in evidence at the close. A fourteen deck shipment of good to choice 70 lb. Nevadas were sold straight at $13.00 while the bulk of the good grades have scaled at $12.75-$12.90 with 10-15 percent sorts on several strings. Shorn lambs have made $11.50-$12.25 with a few lots sorted lightly. Good yearlings have made $9.50 and good ewes $5.50-$6.00.

Mrs. Clifford Robie and son of Oakland, are spending the week at the home of Mrs. Robie's parents, Mr. and Mrs. P. J. Boring. Mr. Robie will come to Ukiah this week end and accompany his family home.

CITY TRUSTEES

(Continued from page 1)

The new sewers are waiting the action of the board of supervisors in connection with the proposed new road from Perkins street at the Redemeyer barn south to intersect with the old asylum road. The city and county will work together to build this road, as half of it will be in the city and half in the county. The supervisors two months ago appointed viewers, who have not yet made their report. It is likely that necessary proceedings will delay the sewer matter until next spring at least, and perhaps longer.

GAS TAX TO BRING $30,000,000 YEARLY

It is estimated that the three-cent gasoline tax in California will bring in approximately $30,000,000 per year during the twelve year period for which the law is to be effective, according to the National Automobile club.

The amount will be expended one-third for construction of new state highways: one-third for maintenance of existing highways, and one-third for the general road fund of the 58 counties, the latter amount to be apportioned according to the motor vehicle registration of the counties.

Mr. and Mrs. Ernest Neuhaus and children, accompanied by Mrs. Neuhaus's mother from Humboldt county, motored to Fort Bragg or a week end visit with Mrs. Phillips, a sister of Mrs. Neuhaus.

HIGHWAY COMMISSION ON INSPECTION TOUR

Redwood and Trinity Roads Visited by Body of State Officials

Coming over the Redwood highway on a tour of inspection which also included the Trinity highway, members of the highway commission and engineers passed through Ukiah the latter part of last week. The party left San Francisco Thursday morning. Friday they were luncheon guests of the chamber of commerce at Eureka and participated in a round table discussion on road matters.

Continuing north the party went to Crescent City and thence to the Oregon line. Friday night was spent at Crescent City. Saturday the commissioners drove over the Trinity highway, spending Saturday night at Weaverville. The highway was inspected as far as Redding. The return to Sacramento was made Sunday.

Included in the party were Ralph W. Bull, chairman of the state highway commission, Senator M. B. Harris of Fresno, Fred M. Moody of San Francisco, commissioners; Bert Meek, director of public works, R. W. Morton, state highway engineer, and T. A. Bedford, division engineer of Eureka.

RUUSKA 4TH IN SWIM ACROSS GOLDEN GATE

FT. BRAAGG, Sept. 21.—Veikko Ruuska, a local boy, gave a marvelous performance when he won fourth place in the Golden Gate swim Sunday.

All three boys, Veikko Ruuska, Nick Walley and Howard Bishop, started in the race. Over 180 swimmers were lined up on the beach when the pistol was fired to start. Ruuska was on the west end of the line, with Mostin of Willits, who finished third in our Ten Mile river swim, beside him. When the swimmers had gone 300 yards there were but six out in front, Ruuska being one of the six.

San Francisco papers did not give Fort Bragg much publicity on the boy's performance, but next year, if he is in the same condition, he will be on the front page.

Thanks should be given to the men of the San Francisco International Fish company for their kindness in helping the local swimmers to secure pilot boats. Sal Pentici and some of his men spent a whole day with C. D. Marshall and the writer going among the fishermen in order to secure boats.

REALIZES AMBITION OF LIFETIME AT 83 YEARS

Robert Marders, Well Known Pioneer, Climbs Mount Diablo on September 10

FIRST SAW MOUNTAIN IN 1855

OAKLAND, Sept. 10.—Robert R. Marders, California pioneer, octogenarian and well known Ukiah resident, realized a long cherished dream of his youth today when he made a motor trip to the summit of Mount Diablo after waiting seventy-two years for an opportunity to set foot upon that lofty eminence.

In 1855, Marders told local newspapermen, he came to California from Missouri via the ox team route, pausing for a time in the San Francisco bay area. At that early date, he said, the noted Contra Costa peak challenged the imagination of the young Missourian. He told himself then, he stated, that some day he would climb to Diablo's summit.

"I am 83 years of age now," explained Marders beaming with the enthusiasm of youth, "but had I thought back in 1855 that I would have to wait for more than 'threescore-years-and-ten' before making the ascent to Mt. Diablo I probably would have hiked to the summit then and there and had it over with.

"Had I then acted upon such an impulse I probably would have missed today's wonderful experience of riding in a closed automobile to the very pinnacle of the peak over one of the finest mountain roads I have ever seen. It was a comfortable and awe-inspiring trip. I have been so thrilled with the grandeur of the panorama visible from the summit of the mountain that I feel I have added another seventeen years to my life and that I shall, as a result of today's experience, round out a full century before I pass on."

Marders' journey today was made with his son-in-law, J. E. McCracken of this city. They were accompanied by a local press correspondent and a photographer.

UPPER LAKE MAN SHOT HUNTING IN MODOC CO.

(Lakeport Press)

Carried for seven hours from the Modoc hunting country where he was shot, and with another hour's wait before he could be gotten to a hospital, Lloyd Scott, former Lake county boy, died Saturday at Westwood from a wound received Thursday which was not at first considered fatal. Scott, while hunting mule-tail deer in company with his father, A. N. Scott, his brother-in-law Val Sleeper and others, received a stray bullet which struck him in the hip and came out at the abdomen. The physicians found that it had punctured the intestines. Scott died on the operating table. There is no authentic information at this time who fired the fatal shot.

Lloyd B. Scott was the eldest son of Albert N. Scott of Bachelor valley and the late Mrs. Scott, who died three years ago. He was born at Shelfburg, Pennsylvania, March 12, 1887, making his age over 41 years.

Married to Gertrude Pool, daughter of Mr. and Mrs. Frank Pool of Scotts valley, the departed man is survived by his wife and a daughter, Aletha, aged 14 years. He is also survived by his father, five brothers, Burrell and John of Westwood, Zay, Pete and James of the Upper Lake section; and two sisters, Mrs. Van Sleeper, now of Arcata, and Mrs. Austin Harmon of Bachelor valley.

The body was brought to Upper Lake and funeral services will be held at 2:30 p. m. today (Wednesday) at the Austin Harmon home, with interment at Upper Lake cemetery.

SALMON FISHING LAW CONTAINS MANY ERRORS

Measure Not to Be Enforced as Passed by Legislature Says Commission

SEASON FROM JULY 1 TO NOV. 14

Most people have been very much concerned since the publication of the State revised game laws which apparently fixed the open season for salmon fishing in coast streams between August 1 and October 5. As there is practically no salmon fishing to speak of before the rains of October the law as outlined had practically forbidden salmon fishing.

We print below a letter written to Mr. A. E. Bishop by Mr. Scofield of the commission in which it is made plain that the intent of the legislators was not carried out in the measure as passed. We gather from this letter that the Fish and Game Commission will not attempt to enforce the law as actually passed, but will be guided by the original draft of the law, as the legislators planned to make it.

Mr. A. E. Bishop, Mendocino, Calif.
Dear Sir:

We have received your letter of September 6, in relation to the salmon season in District 2½. The new salmon law is rather ambiguous, due to several errors. The intent of the law appears to be to permit two salmon a day by hook and line or spear in District 2½ between August 1 and October 5. Due to the presence of a clause on "possession" carried over by mistake from an old law, it is our opinion that a person can take two salmon a day with hook and line between July 1 and November 14.

Your assemblyman, Mr. Melville, and Senator Handy had this bill amended on the floor of the Senate, near the close of the session, so as to permit two salmon a day to be taken in District 2½ at any time of the year. This amendment, through an error, which rarely occurs, was garbled in the office of the engrossing clerk, and the bill the governor signed does not give the amendment as intended for your district.

The Fish and Game Commission has been asked to enforce the law as it is known the legislature intended for District 2½. This matter has not been settled. It is quite certain, however, that the season for taking two salmon a day with hook and line in your district will be from July 1 to November 14, inclusive; and two salmon a day may be be speared between August 1 and October 5, inclusive.

Very truly yours,
N. B. SCOFIELD
In charge, Department of Commercial Fisheries.

MRS. PERKINS BETTER

FT. BRAGG, Sept. 26.—Mrs. Nancy Perkins was taken very ill the latter part of last week and for a time her condition gave her family grave concern. Her sister, Mrs. Chester Flowers, came over from Ukiah and a telegram was sent to her son and daughter-in-law, Mr. and Mrs. Fred Perkins, who were on an auto tour in the north. As soon as they received this word they started for Fort Bragg and drove practically day and night until they reached here, and were very happy to find on their arrival that Mrs. Perkins' condition had greatly improved. The homeward trip proved very trying on Mrs. Fred Perkins and she has been ill since her return.

Mrs. Nancy Perkins is one of the coast's pioneer residents, a woman widely known and greatly beloved for her many fine qualities—and her serious illness caused much concern among her great number of friends.

PT. ARENA FARM PICNIC DRAWS BIG CROWD

The Point Arena farm center picnic was held last Sunday at Stornetti's grove on the Garcia river and brought out a very large gathering with a good attendance from all coast points and many being present from the interior valleys. The day was all that could be desired climatically and a very fine program was presented by the committee having the affair in charge.

This program included judging of dairy and other stock, some good addresses by farm experts and a variety of sport numbers. Three veal had been barbecued and the midday meal was a very pleasant part of a successful day.

BUICK LEADS SALES IN NORTHERN CALIFORNIA

With 1178 new cars registered in northern California during August, Buick outsold every other make of car, regardless of price or class, according to figures which have just been released by "Motor Registration News," the official statistical publication of the automotive trade.

"The registration figures best tell the story of the public's liking for the new Buick," said Floyd Banker, Buick dealer here. "The Buick for 1928 is the most popular Buick yet produced and its record hold is strengthening each day as more and more cars go into service in the hands of the owners.

"While the Buick leads all other cars in sales by a wide margin, the total would have been greater had shipments been fast enough to keep up with the orders. Although greater provisions than ever before were made for the sales rush, the reserve supply was exhausted in the first few days. However, shipments are now rolling westward in increased numbers as the factory is doing everything possible to get cars to the owners as rapidly as possible."

SAMUEL MITCHELL IMPROVING

Samuel Mitchell, who recently collided with an automobile while riding his bicycle near the city library, and who suffered a badly broken leg as a result, is now able to hobble around a bit on crutches. His leg is growing strong very rapidly and he will soon be able to have the cast off. His recovery in such brief time after an accident which nearly necessitated an amputation is very remarkable.

Mrs. Bert Miller arrived here the early part of the week for a short business visit. She will leave again for her home in Hollywood the latter part of the week. She and Mr. Miller are enjoying their stay in the southern section, but long for Ukiah at times. Mr. Miller's health is very good, she states.

VISITORS FROM EAST

F. M. Swim and family are entertaining as guest Mr. Swim's nephew, J. M. Loucks, of Sheridan, Wyoming. Mr. Loucks is keenely interested in fruit raising here, as no fruit grows where he came from except apples, on account of the cold weather at times, when the thermometer drops to 30 below zero.

Mr. Loucks, who has been in the employ of the Burlington railroad as a timber preserving engineer, will go from here to southern California, where, after a visit with other relatives, he will enter a school in Los Angeles.
